NOTES:

Boxes: Lids are required on each box

Tolerance: Defects - 8% total, including 3% serious damage, including 1% decay or internal breakdown
Size - Must be uniform. Not more than 5% can vary by 1/4"

Totes: Please do not add an extra tote bag to boxes unless you are instructed to do so for the season - at that point we will revise the spec as we do each year

Quality: Should exhibit good color consistent with the variety. Must be clean and free of dirt, dust and residues. Shape should be consistent with the variety. Must be fully mature. All flesh is creamy white.

Condition specs: Firmness - Hard tenacious flesh that cuts with a snap
Bruising - Should be minimal. Score for each bruise over 1/3" wide and 1/8" deep
Stem Punctures - Score all against quality
Bitter Pit - Score as decay
Water Core - There is to be minimal amount. Cannot score water core on Fuji.

Flavor attributes: Desirable - Crisp and juicy with firm texture
Undesirable - Soft, dry and mealy

In bound shipping./receiving temperature specs: 34 to 36 degrees (preferred); new crop apples will have temps of 45 to 60

By **August 29, 2016**, please ensure that all products shipped to Ahold facilities have a clearly visible and readable pack on date in calendar or julian date format. Any failure to act in accordance with this standard practice and non-compliance after August 29, 2016 will result in rejections.

Sensitech's TempTale Geo Temperature Recorder is required - see attached form
